## Unauthorized Internet Resellers

---

### Consumer Warning!

#### **WARNING REGARDING UNAUTHORIZED RESELLERS:**

Jan Marini Skin Research® delivers professional, science backed skin care products through licensed physicians, spas and salons around the globe. These physicians, spas and salons are authorized resellers selected by Jan Marini Skin Research. They have been chosen for their ability to properly represent, sell, recommend, and assist consumers in the use of our products, as well as their experience with various skin types, conditions, and general customer concerns. When you purchase one of our products from an authorized reseller anywhere in the world, you can be assured that the product has been subjected to our stringent development, manufacturing, testing and quality control procedures and meets our high professional standards. **Jan Marini Skin Research provides a warranty on its products, but only when those products are sold by our authorized resellers.**

Unfortunately, Jan Marini Skin Research products are sometimes sold by companies that are not authorized to do so. Products sold by these unauthorized resellers are not purchased from Jan Marini Skin Research and are not subject to our quality controls. Instead, they are acquired from unknown and often unverifiable sources. Due to the nature of the goods sold by unauthorized resellers, as well as their business practices, products sold by such resellers are not entitled to Jan Marini Skin Research warranty protection. We are using our best efforts (including this warning) to keep these companies from taking advantage of consumers, but unauthorized practices still exist. We urge you to use diligence when selecting a source for your purchases.

To assist you, we have provided below a partial list of websites which claim to sell Jan Marini Skin Research products but are unauthorized resellers. These sites have no relationship with Jan Marini Skin Research and are not authorized to sell our products. Many of them are illegally attempting to use our copyrighted logos and trademarks. When

you purchase products from an unauthorized website, you are taking a risk because any purported Jan Marini Skin Research products sold through these sites are diverted and therefore may be diluted, ineffective, expired and/or counterfeit. In some cases, such products may not be safe to use.

Jan Marini Skin Research cannot warrant or vouch for the authenticity, quality, safety, or condition of products purchased through any of these sites or other unauthorized sites, and will not accept any responsibility for customer dissatisfaction or harm caused by such diverted products.
